

Ohio Voter Survey Results: The public is ready for the State of Ohio to resume its largesse towards local governments and schools

QUESTION WORDING:

“Which opinion comes closest to yours?”

Simply put, it appears that Ohioans are ready – perhaps eager – to see the State resume budget allocations for local services. It is an idea that is highly popular and, although there are notable differences by party and race, support exceeds 50% with all major segments of the electorate.

Methods

This survey research data was gathered through telephone interviews that specially-trained interviewers conducted with 802 randomly-selected registered Ohio voters with histories of voting in recent general elections, who had valid residential, VOIP or cellular telephone numbers. The interviews were performed during the period of January 6, 2016 through January 10, 2016. The overall estimated margin of sampling error is +/- 3.46%, based on a confidence level of 95%, although it varies for each individual question. This means that if this survey were repeated, 95 times out of 100 the results would be within plus or minus 3.46% of those provided herein. Adjustments were made to weight the results toward demographic and geographic characteristics of the state's electorate, in order to account for under- and over-sampling that normally occurs as a result of the random selection process, and to ensure that all major sub-groups are represented in proportion to their actual percentages. Like all polls, this opinion survey research is subject to other possible sources of error, such as unintentional bias in the wording of questions, data-entry error and nonresponse bias. **Please note that this survey question was not funded or commissioned by any organization or committee, nor was Fallon Research & Communications, Inc. retained by any parties of interest in this matter.**
