

Ohio Voter Survey Results: High support for later school starting times for adolescents and little concern about possible consequences

QUESTION WORDING:

“Generally speaking, do you support or oppose later school starting times in the morning for the middle and high schools?”

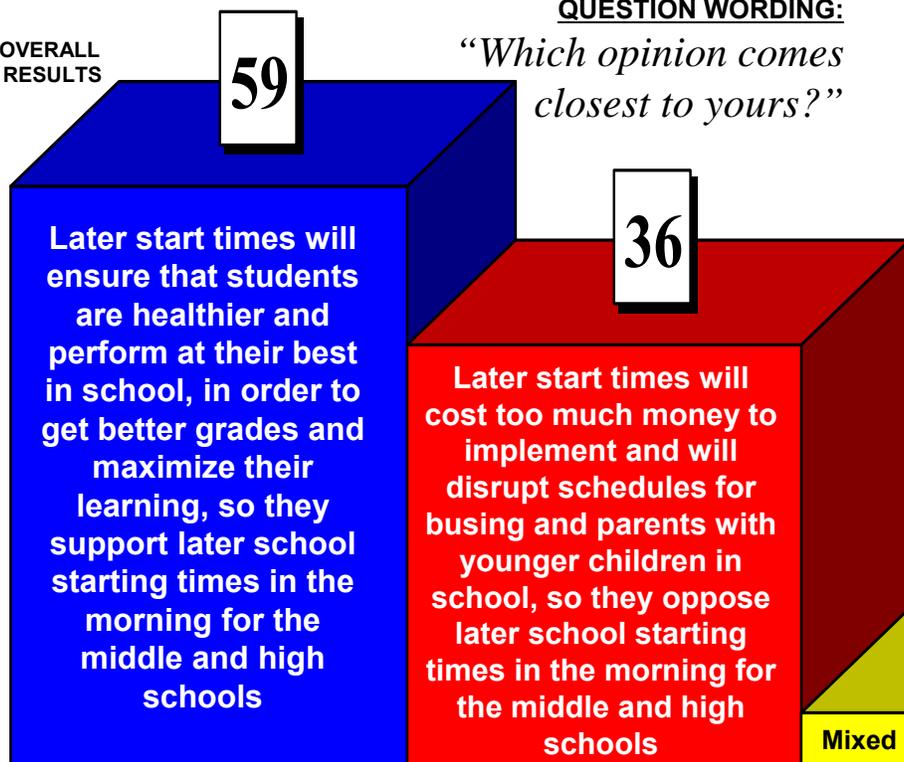

SUB-GROUP RESULTS*

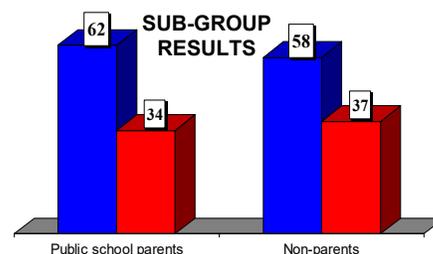

QUESTION WORDING:

“Which opinion comes closest to yours?”

OVERALL RESULTS

Tested both in concept and as a practice, the idea of later start times has strong support among parents and non-parents, despite possible adverse effects that could result. Support for the idea was above 50% among every sub-group, including senior citizens.

* Differences are not statistically significant

Methods

This survey research data was gathered through telephone interviews that specially-trained interviewers conducted with 801 randomly-selected registered voters in the State of Ohio with histories of voting in recent November general elections, who had valid residential, VOIP or cellular telephone numbers. The interviews were performed during the period of January 24, 2017 through January 28, 2017. The overall estimated margin of sampling error is +/- 3.46%, based on a confidence level of 95%, although it varies for each individual question. This means that if this survey were repeated, 95 times out of 100 the results would be within plus or minus 3.46% of those provided herein. Adjustments were made to weight the results toward demographic and geographic characteristics of the state's electorate, in order to account for under- and over-sampling that normally occurs as a result of the random selection process, and to ensure that all major sub-groups are represented in proportion to their actual percentages. Like all polls, this survey research is subject to other possible sources of error, such as unintentional bias in the wording of questions, data-entry error and nonresponse bias. **Please note that this survey question was not funded or commissioned by any organization or committee, nor was Fallon Research & Communications, Inc. retained by any parties of interest in this matter.**
